

# China's Famous Analytical Instrument Brand

## KEJIE Instrument Product Introduction

( And global regional agents, partners recruitment )

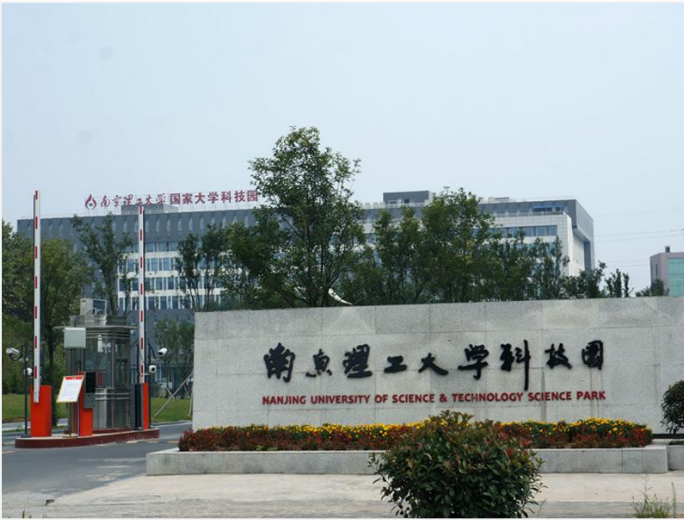

### 1. Brief introduction of Kejie Holdings Group

Kejie holding Group is a global high-tech company integrating professional research and development, manufacturing and sales of scientific analytical instruments. Focus on environmental science, food safety, life science, inspection and quarantine, chemical energy, materials science and other industries and scientific research institutions, third-party testing institutions and government supervision and testing departments to provide a full range of laboratory equipment and overall analysis and testing solutions.

We provide analytical instruments with the latest technology in the world, provide professional solutions for scientists and laboratory analysts in GC, GCMS, LC, AAS, ICP, UV and other fields, and provide technical support in their daily testing, help researchers to do a variety of scientific analysis, assist enterprises to develop testing products. We will assist the government and other regulatory and testing institutions in providing analysis and testing services. Kejie Holdings group provides customers around the world with high-quality technical support and overall service solutions with the leading scientific analytical instruments.

At present, Kejie holding owns: Nanjing Kejie Testing Technology Development Co., LTD., Nanjing Xinchuang Kejie Instrument Manufacturing Co., LTD., Beijing Xinchuang ruili Instrument Co., LTD., Shanghai Jili Instrument Co., LTD., Hunan Chuangte Technology Development Co., LTD., and foreign trade service subsidiaries: Guangzhou Changior Instrument Technology Co., Ltd. which is fully responsible for the sales, service and agent cooperation of the global overseas customers of Kejie brand instruments.

Kejie Holding Group adheres to the international operation thinking, we provide chromatography, spectroscopy, mass spectrometry and other analytical scientific instruments and professional solutions to customers around the world. After nearly 20 years of continuous exploration and development, Kejie Instrument has become a well-known analytical instrument brand in China, Kejie always adhere to the concept of "better human life", continuous innovation, looking forward to achieving win-win cooperation with customers and partners in all regions of the world.

△ Kejie Instruments is located in China high-tech Industrial park

## 2. Kejie company honorary qualification

As a leader in the analytical instrument industry, Kejie Holding Group always puts scientific and technological innovation and service quality in the first place. After more than 20 years of precipitation and accumulation, kejie has won the praise of the society and many customers, and obtained a number of technical qualifications and honorary certificates.

## 3. Service scope of Kejie

### A、 Development and production of analytical instruments

Kejie company has more than 20 years of professional analytical instrument production experience, has a group of long-term engaged in analytical instrument development and application of senior engineers, experts and professors, has its own professional production workshop, output and quality stability, can meet the long-term cooperation requirements of all kinds of customers.

### B、 Analytical instrument sales and services

We have independent intellectual property rights for the global sales of chromatographs, spectrometers and all kinds of analytical instruments supporting products, provide a variety of analysis and testing laboratory analytical instruments, to provide customers with a perfect after-sales and guarantee service system.

### C、 Provide industry applications and solutions

We provide a wide range of analytical testing solutions such as food safety, environmental protection, petroleum chemical industry, quality inspection safety testing, agricultural industry, research and other industries. We also help customers select instruments, establish chromatographic analysis methods, train operators, provide customers with a variety of free analytical instrument application, maintenance and other technical consulting services, truly let customers "buy at ease, use at ease".

#### Food Safety Testing

With the globalization of the food chain, the protection of consumers and brands is increasingly important.

#### Medicine Health

Drugs are directly related to people's health and life safety, and ensuring drug safety is the greatest livelihood.

#### Environmental Protection

The human beings are now facing big challenges in environmental analysis and monitoring.

#### Energy Chemical

Solutions to meet your detection needs of natural gas sulfide, oxygenate, or petroleum liquefied gas items.

#### Agricultural Industry

With globalization of agricultural, laboratories need accurate and low-cost multi-residue analytical procedures.

#### Materials Metallurgy

Solutions of metallurgical and material chemical composition analysis and testing, metallurgical process testing.

## 4. Main products of Kejie company

We provide laboratory analysis and detection of a complete set of product solutions, including: chromatograph series (gas chromatograph, liquid chromatograph, ion chromatograph); Spectrometer series (atomic absorption spectrophotometer, atomic fluorescence spectrophotometer, UV-visible spectrophotometer, ICP-AES); Sample pretreatment series products and various ancillary products.

△ Gas chromatograph

△ Liquid chromatograph

△ Atomic absorption spectrometer

UV-visible spectrophotometer / Chromatographic spectrum supporting products / Consumables and ancillary products

**GC5890N Gas Chromatograph**

**GC689N Gas Chromatograph**

**GC7900 Gas Chromatograph**

## 5. Global regional agents & partner recruitment

As the source of analytical instrument manufacturing, we have the strength to provide customers with quality products and services, as part of the global layout strategy, Kejie instrument is now recruiting agents and partners to join the world.

### Currently, open cooperation and joining cooperation countries:

Global Region	Countries & Regions
Southeast Asia	Indonesia, Malaysia, Thailand, Philippines, Vietnam, Myanmar, Cambodia
Central Asia	Kazakhstan, Uzbekistan, Kyrgyzstan, Tajikistan, Turkmenistan
Middle East	United Arab Emirates, Saudi Arabia, Qatar, Kuwait, Bahrain
South America	Brazil, Argentina, Chile, Peru, Colombia, Costa Rica
China & Environs	Hongkong
Other Countries & Regions	If you are interested in joining us, please contact us.

### Conditions for global regional franchise partners: :

1. Engaged in trade and commercial field, have good business reputation ;
2. Engaged in analytical instrument testing services, government agencies and other testing industries;
3. The concept of international cooperation and win-win development;
4. Enterprises, institutions, government departments, research institutes or individuals can join.

Franchise cooperation contact: please send special franchise cooperation

Email: [sales@changior.com](mailto:sales@changior.com) we will get in touch with you for the first time after receiving your email.

## 6. Part of strategic partners

With high quality products and services, Kejie Instrument has established a deep strategic cooperative relationship with many partners. Facing the global market, we will strive to provide customers with high-tech analytical instrument products and overall solutions for testing laboratories. We look forward to cooperating with you comprehensively.

## 7. Contact us

**Kejie Instrument Holding Group:** Nanjing Branch: **Nanjing Kejie Testing Technology Development Co., LTD.**, Address: Baixia High-tech Industrial Park, Yongzhi Road, Qinhuai District, Nanjing; Hunan Branch: **Hunan Chuangte Technology Development Co., LTD.**, Address: Building A7, International Enterprise Center, West Environmental Protection Road, Yuhua District, Changsha city; Beijing Branch: **Beijing Hengtong Ruili Instrument Co., LTD.**, Address: No. 1 Shunqiang Road, Shunyi District, Beijing; Foreign trade subsidiary: **Guangzhou Changior Instrument Technology Co., LTD.**, address: 1963 Huaguan Road, Tianhe District, Guangzhou city.

**Exclusive contact information for global cooperation customers: E-mail: [sales@changior.com](mailto:sales@changior.com)**

**We will contact you for the first time after receiving your email.**

**We are not only a supplier of analytical equipment,**

**We are also the solution solvers of the whole analytical laboratory.**

**Looking forward to establishing long-term cooperative relations with customers in all regions of the world.**
